Cougar Band Competes In San Francisco

The Cougar Marching Band, under the direction of Mr. Al Bazzel, performed their most spectacular show in May when they flew to San Francisco, California to compete in the Heritage Music Festival. The trip wasn't all work, though. The group toured the San Francisco area, visiting the Golden Gate Bridge and the Redwood Forest, and cruising San Francisco Bay.

To raise money for the trip, they held a series of fundraisers. With the help of the Band Boosters, an organization of parents who support the band, the group sold poinsettias, cheesecake, candy bars, and subs. They held a volleyball marathon, a flea market, and a bake sale.

"Schalick's band has had a busy year," said Band Booster President Mr. Stan Shapiro. "They spent hours and hours practicing the new music and learning routines. Our band really works hard."

It did not come easy. They practiced two nights a week, including Saturday mornings. Most of the field show was unveiled during summer band camp, which was held during the last week of August. Students worked almost six hours a day, learning the music and the marching.

"The band has worked hard and shown great improvement," declared Mr. Bazzel.

The hours of practice paid off in October when the Cougars placed second in Division II Band Competition at Buena Regional High School. In November they hosted a Calvalcade of Bands. This marked the first time the band sponsored their own band competition.

"It gave the community an opportunity to see other bands compete," explained Mr. Bazzel. "It also gave people from South Jersey the chance to come and see Schalick High School."

The Cougar Marching Band has proven once again that hard work can equal great success.

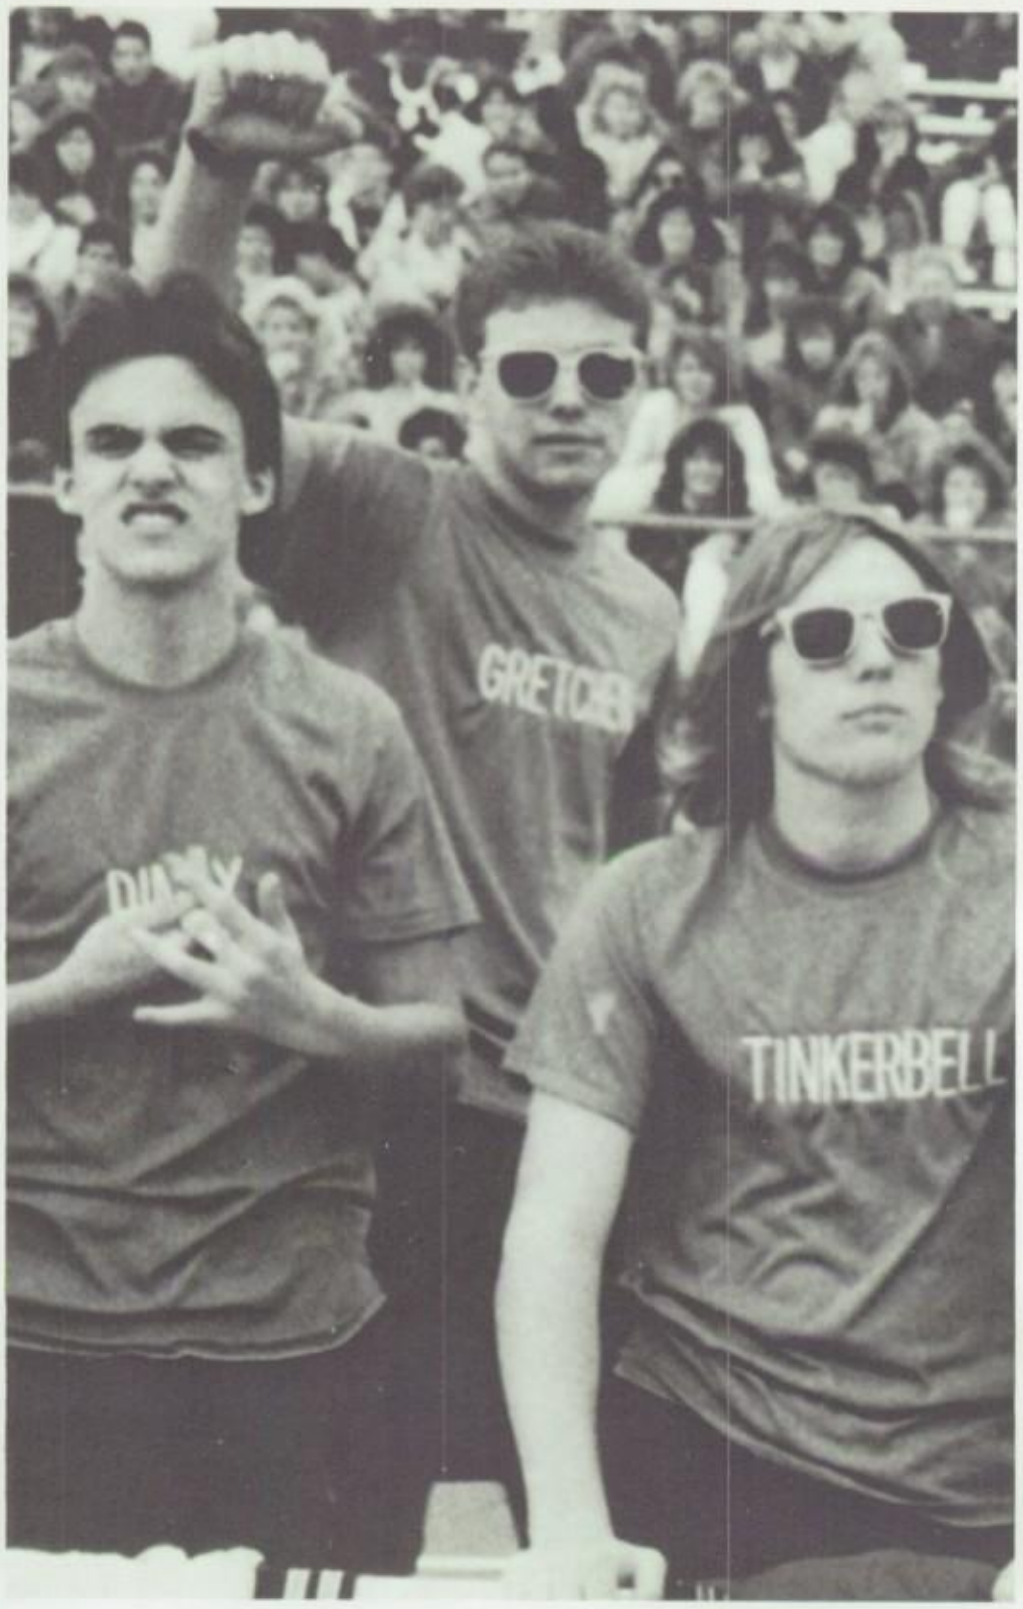
COUGAR SPIRIT: We've Got It !

How do you get your student body psyched for the big Thanksgiving game? If they're girls, you invite them to play football, sort of. If they're guys, you ask them to be cheerleaders, kind of. If you're on the **Spirit Committee,** you talk the faculty into letting everyone come out and watch the first annual Powder Puff Football Game held in Cougar Stadium the day before Thanksgiving. In its first year, the Spirit Committee presented the student body with some new twists on celebrating school spirit. Made up mostly of juniors and seniors and led by Mr. Chuck Tortella and Mr. Mike McGowan, the Spirit Committee worked to plan pep rallies and other special events throughout the year. How do they decide what will succeed?

"Well," said Matt Webb. "We'll do whatever sounds fun!"



"Cheerleaders" Mike Walter, David Surdam, and Joe "Tinkerbell" Reeves put on quite a show.

COMPETITION: Academics Come First

Student Scholars Go For the Gold

Competition has become the focus of many clubs this year. For the first time, Schalick fielded an **Academic Quiz Team**, which competed in "College Bowl" tournaments this winter and spring.

The Math League continued its winning ways, placing first in Salem County after four of the six test results were posted. The Pre- Calculus and Algebra III classes took the series of math tests. The top five scores on every test were sent to the state and tabulated. Schalick has won the Math League competition four times.

The Odyssey of the Mind (OM) teams entered their regional competition in March at Gloucester County College. One of the problems this year was entitled, "It's Show Time," where students were required to write an original play based on a novel and set it to music. Another problem was called "The Gift of Flight", where students constructed six different aircraft, each to exact specifications.

Two junior high students, **Nancy Vasquez** and **Bryan Swain**, were victorious in the Elmer Grange Spelling Bee in November. Bryan went on to win the Salem County Spelling Bee and advanced to the state competition in Trenton where he was overtaken.

CREATIVITY: Alive !

Students Explore In New Directions

Creative artists have found new outlets from which to express their talents. The **Art Club** and **Drama Club** have generated new interest in the fine and performing arts at Schalick. Members of the Art Club are "working to expand their artistic abilities outside the classroom," said club member **Amy Gapinski.**

"We wanted more than 45 minutes of art a day," declared **Ed O'Brien. Advisor Mrs. Carolyn Mortimer** wants to "prove to students that art can serve the school community." One of the group's ongoing projects is to paint artistic symbols that express the academic life of the school. The club's silkscreened cougar flags and painted murals brightened the hallways this winter. "More than anything," said Mrs. Mortimer, "we want to show students that art is an asset and can add to the total atmosphere of the school."

The Drama Club's production of the musical **"Oklahoma"** is its most ambitious ever. Over 40 students from all grades are involved, either as actors and stage musicians or as crew members working on set design, costumes, make up, props, or publicity. The production is set for May 20 -21. **Mrs. Felice Meiswinkle** is the producer-director. **Ms. Sue Gilbert** from Olivet is serving as co-director. **Mrs. Joanne Henry,** also from Olivet, will work with the stage band.

The **Vocal Music Department** performed Christmas and spring concerts this year. **Mara Sultan** successfully auditioned for the **All State Chorus** and the **South Jersey Chorus**.

For the first time in its history, Schalick hosted the Salem County Band and Choral Concert in April. **Sibyl Button** was named **First Chair** of the horn section of the Salem County Band. According to vocal teacher **Mrs. Arlene Button,** only students with the highest grades in music classes are eligible to participate.

SERVICE: Students Take a Stand

S.A.D.D. Members Urge Friends 'Don't Drive Drunk'

At the end of the first membership drive in their three year history, the officers of **SADD** enrolled 132 students in grades 7-12. **President Darryl Hodson** and **Vice President Sandy Malone** spoke at a series of informal assemblies to make students aware of the message of SADD.

"Members of SADD must be willing to take a stand and say, 'I'm against driving drunk'. That is a pretty tough stand for a young person to take," believes advisor **Mr. Mike McGowan.**

Still, Schalick students signed up in record numbers.

"Our officers are really an energetic group of people," said Mr. McGowan. "They are willing to give their time and effort toward getting out the message."

The group has kept a high profile throughout the year. In the fall, SADD sponsored an assembly with guest speaker Stephen Booth, a 24-year-old paraplegic who described his life six years after getting into a car with a drunk driver. The group also operated a booth at the Elmer Hospital Fair and encouraged students to "share a cup of warmth" with hot chocolate instead of alcohol. In the spring the group distributed parent/student contracts with positive results. "We want to make people aware of the dangers of drinking and driving." declared Mr. McGowan ."We hope we're making an impact."

" Why did you go out for a sport?"

" I went out for football, wrestling and track because I like the feeling of being able to dominate the person across from me."

"I play football because I like the feeling of satisfaction I get knowing I work harder than most people who aren't in a sport or activity."

Doug Jansky

"I play field hockey because I like to be part of a team, otherwise I don't feel complete. It is the feeling of acceptance by my peers that matters to me most."

Cross Country Posts Winning Season

Greg Frith Sets School Record

The Cross Country team boasted a winning record this season for the first time ever. They ended with a record of 6-5 overall and went 3 - 3 in the Tri County Conference.

Sophomore **Greg Frith** set a new school record by running 5,000 meters in 17 minutes. He was named to the Tri County All Star Cross Country Team. In the sectional meet the team placed 14th out of 19 teams. Coach Steve Pierangeli and Assistant Coach Nedd Johnson hope to be more competitive next year and perhaps add a girls' team. Said both coaches, "We are very proud of all our runners."

Cougars Survive Tough Season

Cougar football survived another rough fall in '87, ending the season at 0-9. In spite of the losing season, the players still share a sense of accomplishment. Said senior **Greg Dull,** "Everything we put into it, I feel we got back. We survived. We didn't quit."

"I think we developed a real feeling of unity. Everybody worked very hard," said senior **Jimmie Rains.** Both Greg and Jimmie agreed that the Pitman game was the most emotional of the season. "We held them to mid field for most of the game," said Jimmie. "We held them better than any team we faced all season and they still came back and scored a field goal."

Junior Josh Hedgeman was named to the All South Jersey Group I team as a linebacker. He also made the Tri County All Star Team, as did teammate **Jim Hannold. Jeff Higinbotham, Joe Wentzell, Joe Lindmeier and Jay Bishop** earned Honorable Mentions.

"It takes more effort, more desire to play week after week for a team that doesn't always win," said Jimmie. "I'm going to miss it."

New Science Course Takes Flight

College- bound juniors and seniors who have fulfilled their science requirements but are looking for an additional challenge now have a new option. The course is called Aerospace and is offered as an elective by the science department.

" It is primarily a survey course that studies the principles of aerodynamics and the history of NASA activites," said course instructor Mr. Jim Hughes.

" Students learn how to build, launch, track, and recover model rockets." Forty-five students are enrolled this year. According to Mr. Hughes, Schalick is the only school in the state to offer such a course. NASA has donated tape recordings of the Apollo and Mercury missions as well as tapes of its astronaut training program. The class has visited the National Air and Space Museum and the NASA Research Center in Maryland.

Athletic Trainer Keeps Cougars Healthy

In the course of one day, he tapes weak ankles, exercises injured knees, diagnoses pulled muscles, and checks on the progress of jammed ankles. A messenger appears at his door and he's off on his modified golf cart to the practice fields to tend to other possible injuries.

He's Greg Cipkins, Schalick's newest physical education instructor and athletic trainer. Schalick is one of the few schools in South Jersey to employ a certified athletic trainer.

An athletic trainer aids in the prevention, treatment and rehabilitation of athletic injuries.

"Anytime you have sports programs, your're going to have injuries, and your're going to need someone who's qualified to treat those injuries," said Mr. Cipkins.

But, he admits, prevention of injuries is his first priority. One way to do that is to improve the conditioning of prospective athletes.

Other ideas he supports are a weight training program and nutritional counseling. Mr. Cipkins holds a master's degree from the University of Virginia. He interned as an athletic trainer at Hampden - Sydney College and earned his undergraduate degree in health and physical education from Glassboro State College.

" I became an athletic trainer because I like sports and medicine, and this is a happy medium," said Cipkins.

Reggie Davis flexes his muscles during gym class.

" I admire Mr. McGowan and Mr. Tortella because they do a lot for us kids. They're the ones making traditions for the school. Without them, the school would never have the spirit it does now."
